On Feb. 3, 1920, this report combined with Weekly  
truck crop news issued by the Bureau of crop esti-  
mates to form Weekly crop and market review of fruits  
and vegetables. On April 27, 1920 the Weekly truck  
crop news was discontinued and the title changed back

Market reviews. The regular weekly review, issued  
on Tuesday, summarizes market conditions, current sup-  
plies, and prices of perishable fruits and vegetables.  
This report is often supplemented by detailed reports  
on special crops during their heaviest shipping sea-  
sons. The Monthly review, a statement issued to the  
press, summarizes market conditions and tendencies  
for the preceding four weeks (1.9 Ec741Me) This  
information is taken from 1.9 M34Per.  
  
Issued also from other cities.  
The Washington report is the only  
one kept, as the information is

U.S. Bureau of agricultural engineering

Special studies on experimental work in irrigation were made in the Office of experiment stations a number of years before Congress appropriated regular funds to carry on the work. The first appropriation made for irrigation work was included in the Agricultural appropriation act of 1898. By order of the Secretary of agriculture, the supervision of the work was assigned to the director of the Office of experiment stations. (See Report of the director of the Office of experiment stations, 1898, p. 122) (1 Ex6)

Research in land drainage was begun in 1902 in the

Office of experiment stations (Report...chief of the Bureau of agricultural engineering, 1932)

On July 1, 1916, by the consolidation of the drainage and irrigation work of the Office of experiment stations, of the farm architectural work of the Office of farm management and the Office of public roads, the Office of public roads and rural engineering was created. (See Agricultural appropriation act, 1916. 1 Ag81A)

The name of the Office of public roads and rural engineering was changed to Bureau of public roads by See next card

the Agricultural appropriation act of 1919. Rural engineering work was continued in the Bureau of public roads but under no official division or office name. Reference is made in the Report of the director of public roads, 1920, p.38, to a "division of rural engineering". On July 1, 1921, an official Division of agricultural engineering was established in the Bureau of public roads, according to information received from the chief of the Division (Aug.6, 1938) On July 1931, the status of the Division was changed to that of a bureau and it became the Bureau of agricultural engineering. See next card

the Dept. of agriculture. (See Agricultural appropriation act, 1932)

By the reorganization of the Department of agriculture work, on July 1, 1939, the functions of the Bureau of chemistry and soils and those of the Bureau of agricultural engineering were combined to form the Bureau of agricultural chemistry and engineering. (Secretary's memo. 789, Oct.6, 1938)

U.S. Agricultural marketing service.

Established by Secretary's memorandum no. 783, Oct. 6,  
1938, effective July 1, 1939, as one of major changes for  
unifying Department work in the interest of better serv-  
ing the public in the agricultural marketing field. Im-  
portant role of newly created service is to help those  
engaged in agricultural and other pursuits by disseminat-  
ing current production and market information and by reg-  
ulating marketing practices. -cf. First annual report of  
the chief, 1939, p. 2 of cover.  
Takes over the following activities of the Department:

U.S. Agricultural marketing service.

On Dec. 15, 1941, combined with the Surplus marketing  
administration and the Commodity exchange administration  
to form the Agricultural marketing administration, by  
order of the Secretary of agriculture in Memorandum no.  
960. All publications will continue to be classed in  
1.942.

Reestablished by Secretary's memo, no. 1320, Nov. 2, 1953.  
It assumes marketing and distribution functions formerly  
carried on by Bureau of Agricultural Economics, Agricul-  
tural Research Administration, and Production and Market-
